

Dear Residents:

The purpose of our newsletter is to provide all residents in Warman & area with information as to what is happening in business, sport and our community. We believe it is important that as a learning and highly-involved community, we share this information with everyone. Please feel free to call Jennifer (306-933-2210) if you have suggestions or information for our newsletter.

Hello from Mayor and Council

COVID-19 Pandemic

The No. 1 step you can take to prevent illness is to avoid being exposed to the virus. The virus is spread mainly from person-to-person, such as between people who are in close contact of another (within a radius of 6 feet). The virus is spread through respiratory droplets from an infected person's cough or sneeze which land in the mouths or noses of nearby people.

Steps to "Flatten the Curve"

Flattening the curve, or slowing the rate of infection, is essential to maintaining the integrity of our health care system. The faster the cases of infection rises, the faster the local health care system gets overloaded beyond its capacity to treat people.

Protect yourself.

- Wash your hands often with soap and water for at least 20 seconds.
- If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol.
- Avoid touching your eyes, nose, and mouth

with unwashed hands.

- Avoid close contact with people who are sick.
- Put distance between yourself and other people if COVID-19 is spreading in your community. This is especially important for people who are at higher risk of getting very sick.

Protect others.

- Stay home if you're sick.
- Cover your mouth and nose with a tissue when you cough or sneeze or use the inside of your elbow. Immediately wash your hands with soap and water for at least 20 seconds. If soap and water are not readily available, clean your hands with a hand sanitizer that contains at least 60% alcohol.
- Clean AND disinfect frequently touched surfaces daily. This includes tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, and sinks.

The City of Warman is following the direction set by the provincial government (saskatchewan.ca). If you do not have to leave your home, stay put. Minimize contact with others whenever possible. You can stay

connected with friends and family via the telephone in the time being. The health and safety of everyone depends on our actions now.

We are regularly updating our website (warman.ca) and social media pages (Facebook, Twitter and Instagram) with information for residents and employees as it becomes available.

The City of Warman also has an emergency alert system that is available for free and is easy to use. In times of crisis it is important that you have access to trusted, timely and accurate information to ensure the safety of yourself and your family.

Mobile App Users: Download and install the Voyent Alert! app from the Apple or Google Play app stores.

Email or SMS Users: Register on-line to receive email or text-based alerts at <https://register.voyent-alert.com/> (text notifications will work even if you change your device as long as you retain the same phone number).

For more info visit warman.ca/voyent-alert.

As always, do not hesitate to call your Mayor or Council if you have questions, suggestions or just want to chat. We always welcome conversation with the residents of this great city.

Warman City Council

One woman can make a difference, but together we can rock the world.

In light of International Women's Day (March 8th) I want to honour the many women who work and serve the City of Warman. Some are well known while others work behind the scenes so you may not have met them personally. Their contributions are many, and their community pride shines brightly like the sun on a hot summer day. Today I want to highlight these women and the role they play in our vibrant and growing community. Pictured below are some of the women who work for the City of Warman while juggling family, hobbies and community service.

To all of employees and front line workers, both men and women, City Council and I thank you for your patience and dedication to our community. We will navigate through this difficult time and come out the other side even stronger than before.

Respectfully submitted,
Sheryl Spence, Mayor
